logo

menu/  
settings

## Battle Screen:

• Same layout used for online play and computer opponent.

① Radar Screen has the background animation of a changing radar.

- displays locations you have targeted
- tracks hits & misses

- hits appear as red/orange explosions

- misses appear as splashes of water (blue)

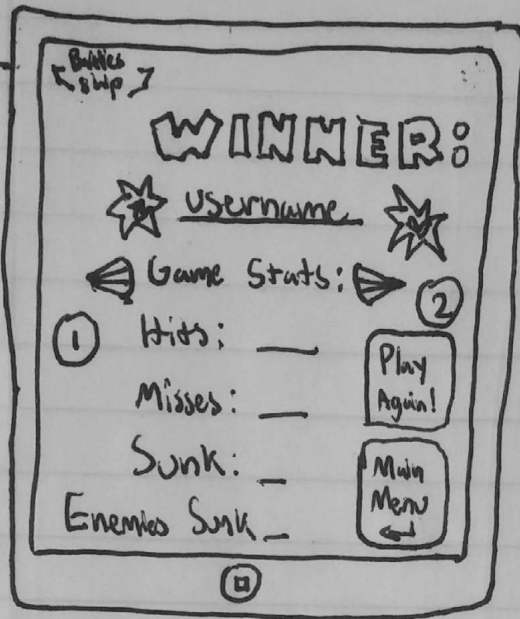

② Ship Screen has

the background animation of blue tropical water

- Displays player's ship placement
- Ships will show increased damage animation as they get hit
- when sunk an outline of the ship will appear below water

# Buttleship: Mobile Combat

logo

## Results Screen:

- Displays winner's username and a collection of statistics about the game played. Screen is the same for both online and v.s. computer play.

① Displays game stats including Hits, Misses, Ships Sunk, and enemies sunk.

② Buttons allowing user to select to "Play Again" or return to Main Menu and adjust settings.
